Now for the New Year.

Now we shall take the public into our confidence for this New Year and believing that we shall have the greater confidence of the people this year, we have prepared for a record-smashing year. all round for 1906. Our stock of

SPRING GOODS

Soon to arrive will be by far the largest in the history of the store and, in thus buying in increased quantities, we have bought the bulk of our stock from the manufacturers and will be able to give you quite a large saving on your purchases. We would have you bear in mind that we still have some desirable merchandise to close out in the several departments. Watch our ad. next week for the opening gun in the New Year's business. February will offer

& SPECIAL INDUCEMENTS &

To the economical huyer along several lines, and last, but not least, watch us expand. We propose to make our store the "mecca" of the shapping public,

THE FARM.

farmers have written me about their horses being troubled with Intestinal worms. Have answered some of them of distase or insects. If the tree by letter. Intestinal worms are most srow thriftly and the ground generally frund in young animals and soud. In due season they will give these that are weakened or debilitated a proper and substantial a ount of from any cause. One of the most of fective remedies for these worms that we have ever used is a drench com posed of turpentine,one ounce, and best in country life the farmer can litseed oil three ounces, given twice a day for three days, and on the fourth a physic of one ounce of Barbalos aloes. Have a druggist prepare the The rich young farmer ruy be an inalues. If one dislikes, or finds | lacintenient, to give drenches, th following may be given mixel with : light feed of cats and wheat bran ouce a day for five days; ground gentian, half ounce; ground nux vomice half dram. The animal should be fed against neglect. Not all who wan me a new man." Grentest remedery lightly while the medicine being given, then gradually larren until on full feed. Give it all the failure and disappointment seen to er guarantee at A. M. Hughes' drugood dean food it desires and turn this account. it cut for exercise an hour or two every fair day. If it fails to rapidly improve in condition, a good veterinarian should be consulted, for it more than likely that the animal wrong otherwise.

The feeding of all live stock is get ting to be a more important question each year, and, if we feed for profit, " mus' study closer

maart keep your horses ! top, I shape by feeding them on o in and timothy has alone. These are all right as a part ration, but semething better must be fed also Don't leave out out.

When the farmers quit feeding logs on corn alone we will have healthier bogs and more profitable ones. Feed something with it will balance the ration.

Have a good lantern and get of to see to your stock early these win ter mornings. Don't forget to us the carrycomb: it will help keep the horse in good condition.

A farmer who, during the waster was milking two cows and giving good feed and good care, began to give warm water to drink, and he had produce from two and on-half tegot from two to three quarts of three and on- hel points of lat- are here handing timber. ter.
